## NOTES

Banks listed under Sarasota, Manatee or Charlotte are headquartered in those counties. Those listed under Elsewhere are based in other Florida counties or out of state but have offices in at least one of the three local counties. Credit unions are either based here or have branches in at least one of the counties.

## DEFINITIONS

Assets: Total average tangible assets as of Sept. 30, 2018.

Profit: Net profit (or loss) for the first nine months of 2018.

## Nonperforming assets:

Loans 90 days past due plus nonaccrual loans plus other real estate owned as a percentage of total assets. One percent or less was the pre-recession industry standard of excellence. Leverage capital ratio: Tangible net worth divided by tangible assets. Regulators require a minimum of 4 percent. Credit unions list regulatory capital as a percentage of assets. Bauer: BauerFinancial

Inc.'s star ratings classify each institution based on a formula that emphasizes capital levels and also includes such data as profitability, historical trends, loan delinquencies, repossessed assets, reserves, regulatory compliance and asset quality. Negative trends are projected forward to compensate for the lag time in the data. Five stars: Superior.

Four stars: Excellent. Three 1/2 stars: Good. Three stars: Adequate.

Two stars: Problematic. One star: Troubled.

Zero stars: Lowest rating. FDIC: Bank has failed and was seized by government regulators.
